

ROYALTY PHARMA APPOINTS ERIC SCHNEIDER AS CHIEF TECHNOLOGY OFFICER

NEW YORK, NY, September 21, 2023 – Royalty Pharma plc (Nasdaq: RPRX) today announced the appointment of Eric Schneider as Senior Vice President, Chief Technology Officer. Eric will also join Royalty Pharma’s Senior Leadership Committee.

Eric joins Royalty Pharma from Verisk, a global leader in data-driven analytic insights and solutions, where he was a Senior Vice President, Chief Data Officer and Chief Technology Officer, and a member of the Executive Leadership Team. During his tenure at Verisk, he led their migration to the cloud, mainframe modernization strategy and Data Governance and Data Strategy Team. Prior to Verisk, Mr. Schneider held senior IT leadership roles at Moody’s Investor Services, Barclay’s Capital, AIG and McKinsey & Company.

“We are thrilled to welcome Eric to Royalty Pharma,” commented Pablo Legorreta, Royalty Pharma’s founder and Chief Executive Officer. “Eric brings over 25 years of experience leading strategic technology initiatives across multiple organizations. Royalty Pharma will continue to stay on the cutting-edge of technology innovation, including further advancing our digital and data capabilities. Eric’s leadership will be incredibly important as we strengthen our enterprise-wide technology platforms and strategy, and endeavor to continuously add value to our partners.”

“My time at Verisk leading their Data Strategy, Data Governance and Data Commercialization initiatives was extremely rewarding,” said Eric Schneider. “Looking ahead, Royalty Pharma has an enormous opportunity to fund life sciences innovation and data analytics is expected to play an increasingly important role in our diligence and partnering efforts. This is truly an exciting time to join Royalty Pharma to accelerate their technology initiatives, especially given their attractive business outlook.”

About Royalty Pharma

Founded in 1996, Royalty Pharma is the largest buyer of biopharmaceutical royalties and a leading funder of innovation across the biopharmaceutical industry, collaborating with innovators from academic institutions, research hospitals and non-profits through small and mid-cap biotechnology companies to leading global pharmaceutical companies. Royalty Pharma has assembled a portfolio of royalties which entitles it to payments based directly on the top-line sales of many of the industry’s leading therapies. Royalty Pharma funds innovation in the biopharmaceutical industry both directly and indirectly - directly when it partners with companies to co-fund late-stage clinical trials and new product launches in exchange for future royalties, and indirectly when it acquires existing royalties from the original innovators. Royalty Pharma’s current portfolio includes royalties on more than 35 commercial products, including Vertex’s Trikafta, Kalydeco, Orkambi and Symdeko, Biogen’s Tysabri, AbbVie and Johnson & Johnson’s Imbruvica, Astellas and Pfizer’s Xtandi, GSK’s Trelegy, Novartis’ Promacta, Pfizer’s Nurtec ODT, Johnson & Johnson’s Tremfya, Roche’s Evrysdi, Gilead’s Trodelvy, and 11 development-stage product candidates.

Forward-Looking Statements

The information set forth herein does not purport to be complete or to contain all of the information you may desire. Statements contained herein are made as of the date of this document unless stated otherwise, and neither the delivery of this document at any time, nor any sale of securities, shall under any circumstances create an implication that the information contained herein is correct as of any time after such date or that information will be updated or revised to reflect information that subsequently becomes available or changes occurring after the date hereof. This document contains statements that constitute “forward-looking statements” as that term is defined in the United States Private Securities Litigation Reform Act of 1995, including statements that express the company’s opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results, in contrast with statements that reflect historical facts. Examples include discussion of Royalty Pharma’s strategies, financing plans, growth opportunities and market growth. In some cases, you can identify such forward-looking statements by terminology such as “may,” “might,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “target,” “forecast,” “guidance,” “goal,” “predicts,” “project,” “potential” or “continue,” the negative of these terms or similar expressions. Forward-looking statements are based on management’s current beliefs and assumptions and on information currently available to the company. However, these forward-looking statements are not a guarantee of Royalty Pharma’s performance, and you should not place undue reliance on such statements. Forward-looking statements are subject to many risks, uncertainties and other variable circumstances, and other factors. Such risks and uncertainties may cause the statements to be inaccurate and readers are cautioned not to place undue reliance on such statements. Many of these risks are outside of Royalty Pharma’s control and could cause its actual results to differ materially from those it thought would occur. The forward-looking statements included in this document are made only as of the date hereof. Royalty Pharma does not undertake, and specifically declines, any obligation to update any such statements or to publicly announce the results of any revisions to any such statements to reflect future events or developments, except as required by law. Certain information contained in this document relates to or is based on studies, publications, surveys and other data obtained from third-party sources and Royalty Pharma’s own internal estimates and research. While Royalty Pharma believes these third-party sources to be reliable as of the date of this document, it has not independently verified, and makes no representation as to the adequacy, fairness, accuracy or completeness of, any information obtained from third-party sources. In addition, all of the market data included in this document involves a number of assumptions and limitations, and there can be no guarantee as to the accuracy or reliability of such assumptions. Finally, while the company believes its own internal research is reliable, such research has not been verified by any independent source. For further information, please reference Royalty Pharma’s reports and documents filed with the U.S. Securities and Exchange Commission (“SEC”) by visiting EDGAR on the SEC’s website at www.sec.gov.
